AI CONSULTING FOR REAL ESTATE & PROPERTY MANAGEMENT

My AI

AI consulting purpose-built for real estate operators — from lease abstraction to tenant intelligence, portfolio analytics to predictive maintenance. We make AI work for the way property businesses actually run.

The Real Estate AI Challenge

Property operators know AI could transform portfolio ops, tenant relationships, and document workflows — but off-the-shelf tools don't understand leases, CAM, or the reality of managing dozens of properties with mixed-use tenants.

Drowning in Lease & Vendor Documents

Abstracting lease terms, CAM schedules, insurance certificates, and vendor contracts eats thousands of hours. Critical dates and clauses slip through manual review.

→ AI lease abstraction & document intelligence

Tenant & Portfolio Blind Spots

Your portfolio data lives in 5 systems. Who's at renewal risk? Which properties are underperforming? Which tenants are healthy? You can't answer fast enough.

→ Unified tenant & portfolio intelligence

Reactive Property Operations

Maintenance requests flood in unprioritized. Vendors are scheduled manually. Small issues become big ones because no one saw the pattern in time.

Compliance & Tenant Data Risk

Fair Housing, tenant PII, payment data, and state-specific lease requirements — AI tools that ignore this create liability, not value.

→ Real estate-grade governance built in

Why AI for Real Estate Now?

- Modern AI can read a 60-page lease in seconds and extract every clause, date, and escalator — eliminating the abstraction backlog that's plagued the industry for decades
- Multi-property operators gain compounding advantage: the more data you have, the sharper AI becomes at predicting renewals, occupancy, and maintenance needs
- Fair Housing, state tenant privacy laws (CCPA, NY SHIELD), and emerging AI disclosure requirements are raising the bar on what "compliant AI" means in real estate
- Institutional competitors are deploying AI to cut admin overhead 40-60% — small and mid-sized operators who wait will face margin pressure they can't escape

Real Estate AI Services

AI consulting and implementation tailored to how property businesses operate — not generic enterprise AI repurposed.

Lease & Document Intelligence

- ✓ Automated lease abstraction (clauses, dates, escalators)
- ✓ CAM reconciliation & expense validation AI
- ✓ Vendor contract analysis & compliance review
- ✓ Insurance certificate tracking & renewal alerts
- ✓ Estoppel & SNDA automated review
- ✓ RFP/questionnaire auto-response (days → minutes)

Tenant & Portfolio Intelligence

- ✓ Lease renewal probability scoring
- ✓ Tenant health & satisfaction signal detection
- ✓ Rent collection risk prediction
- ✓ Occupancy trend analysis across portfolio
- ✓ Revenue optimization & pricing intelligence
- ✓ Market comparison & competitive benchmarking

Property Operations AI

- ✓ Maintenance ticket prioritization & auto-routing
- ✓ Predictive maintenance (HVAC, elevators, roofs)
- ✓ Vendor performance scoring & optimization
- ✓ Energy usage anomaly detection
- ✓ Work-order cost/duration benchmarking
- ✓ Capital project planning intelligence

Compliance & Governance

- ✓ Fair Housing screening review & bias detection
- ✓ Tenant PII protection & CCPA/NY SHIELD compliance
- ✓ State-specific lease requirement validation
- ✓ Audit trails for every AI decision
- ✓ RBAC aligned to property manager roles
- ✓ SOC 2, PCI-DSS for payment workflows

How We Engage

1. **Discover** — Map workflows, pain points & AI opportunities
2. **Design** — Architect solutions for goals & compliance
3. **Implement** — Build, test & deploy with hands-on engineering
4. **Operate** — Operationalize with training & governance

Real Estate AI Use Cases

High-impact AI scenarios we design, architect, and implement for property operators — across commercial, multifamily, industrial, and residential portfolios.

PORTFOLIO INTELLIGENCE

Commercial Portfolio AI Platform

For diversified commercial portfolios (office, retail, mixed-use, industrial): tenant intelligence across the full tenant roster, automated lease abstraction, portfolio performance analytics, and predictive maintenance across multiple geographic markets.

Multi — Asset class

Portfolio — Analytics

MULTIFAMILY

Resident Experience & Leasing AI

For multifamily communities: prospect lead scoring, automated leasing follow-up, resident satisfaction signal detection, maintenance ops intelligence, and amenity usage analytics for resort-style and urban properties.

24/7 — Lead response

AI — Renewal scoring

RESIDENTIAL HOMEBUILDING

Construction & Buyer Intelligence

For homebuilders: entitlement intelligence, site evaluation AI, construction operations optimization, buyer intent scoring, and document intelligence across land acquisition, permit, and sales workflows.

End-to-End — Land to sale

AI — Buyer scoring

CROSS-PORTFOLIO PATTERN

Lease Abstraction at Scale

AI document intelligence for commercial and multifamily operators extracts clauses, escalators, options, and critical dates from leases in seconds — replacing manual abstraction that takes hours per lease.

Hours→Sec — Per lease

100% — Audit trail

COMPLIANCE USE CASE

AI-Assisted Vendor Questionnaires

AI document intelligence auto-populates complex vendor onboarding and compliance questionnaires using the organization's existing document library — reducing response turnaround from days to minutes.

Days→Min — Response time

60-80% — Less review

Engagement Models

Flexible arrangements designed to meet you where you are in your AI journey.

Fixed-Scope Projects

Defined scope, deliverables, timeline, and outcomes. Pay for results, not hours.

- ✓ Portfolio-wide AI Readiness Assessment
- ✓ Lease Abstraction Deployment
- ✓ Tenant Intelligence Platform
- ✓ Predictive Maintenance Implementation

Best for: Discrete initiatives with clear objectives

Flexible Consulting

On-demand strategic and implementation support as your portfolio and needs evolve.

- ✓ PropTech vendor evaluation & selection
- ✓ System integration reviews (Yardi, MRI, RealPage)
- ✓ AI governance for Fair Housing & tenant data
- ✓ Implementation support & troubleshooting

Best for: Ongoing guidance alongside your IT & ops teams

Fractional AI Advisor

Retained monthly engagement providing AI leadership for your property business.

- ✓ Strategic AI roadmap across portfolio
- ✓ Property management team enablement
- ✓ PropTech vendor oversight & rationalization
- ✓ AI governance & compliance QA

Best for: Building durable AI capability in your ops team

Executive AI Workshops

Half-day or full-day briefings tailored to your portfolio and market segments.

- ✓ Real estate AI landscape & competitive positioning
- ✓ Live demos using your actual leases & property data
- ✓ Opportunity assessment by asset class
- ✓ 90-day pilot plan with measurable outcomes

Real Estate Segments We Serve

- Commercial Office & Retail
- Multifamily & Apartments
- Industrial & Warehouse
- Mixed-Use Developments
- Residential Homebuilding
- Development & Construction
- Property Mgmt Companies
- REITs & Real Estate Funds

Real Estate AI Solution Map

How AI transforms property portfolio operations — lease to tenant to maintenance

TECHNIJIAN MY AI: REAL ESTATE EDITION — TRANSFORMING PROPERTY MANAGEMENT THROUGH INTELLIGENCE

4 CORE SERVICE PILLARS

Document Intelligence
Leverage predictive modeling for tenant renewal forecasting and sentiment analysis to boost overall satisfaction and retention rates.

Portfolio Analytics
Optimize revenue and occupancy acress multiple properties using contralized data streams and automated trend forecasting.

Document Intelligence
Automate the extraction of critical leaae data and streandine the CAM (Common Area Maintenance) reconcillation process.

Property Operations AI
Implement predictive maintenance schedules and intelligent vendor management to reduce emergency repair costs and downtime.

THE 4-STEP ENGAGEMENT MODEL

STEP 1: DISCOVER
Identify specific real estate pain points and evaluate existing data infrastructure for AI readiness.

STEP 2: DESIGN
Architect a custom AI solution feilored to the specific portfolio needs and operational goals of the client.

STEP 3: IMPLEMENT
Deploy the AI models into the live environment, ensuring sesinless integration with existing property management software.

STEP 4: OPERATE
Ongoing monitoring and refinement of AI performance to ensure continuous ROI and operational excellence.

PROVEN RESULTS & IMPACT

70%
FASTER OPERATIONAL SPEED
Significant reduction in manual processing time across all property management workflows.

DAYS-TO-MINUTES RFP RESPONSE
Drastic improvement in response times for RFPs and document queries through automated Intelligence.

AUTOMATED PORTFOLIO ANALYTICS
Real-time visibility into portfolio-wide performance metrics without the need for manual data entry or reconciliation.

COMPLIANCE & PRIVACY FOUNDATION

FAIR HOUSING COMPLIANCE
AI models are strictly audited to prevent bias and ensure full adherance to Fair Housing regulations.

TENANT PRIVACY PROTECTION
Robust data governance frameworks ensure that all tenant interactions and personal information remain secure and private.

Ready to Put AI to Work in Your Portfolio?

Schedule a consultation to explore how AI can transform your property operations, tenant relationships, and portfolio performance — with real estate-specific solutions, not generic enterprise AI.

About Technijian — Real Estate AI Consulting

Founded in 2000 by Ravi Jain, Technijian is an AI strategy and implementation consulting firm based in Irvine, CA. We specialize in AI solutions for real estate operators — commercial, multifamily, industrial, mixed-use, and homebuilding. Our work combines 25+ years of technology operating experience with deep real estate domain expertise: lease structures, CAM, tenant relationships, property operations, Fair Housing, and PropTech integrations (Yardi, MRI, RealPage, AppFolio). We deliver across the full lifecycle — from strategy and architecture through implementation, governance, and operational rollout.
