Nexus Assess

IT RISK & COMPLIANCE PLATFORM

Automated IT environment scanning, risk scoring, and compliance reporting across your entire infrastructure.

94+	3	24/7	10
Report Types	OS Platforms	Monitoring	Frameworks

The Problem You're Facing

■ **Blind Spots in Hybrid Environments** Your network spans on-premise, cloud, and remote endpoints — but no single tool sees it all.

■ **Manual Audits Drain Resources** Security assessments take weeks across multiple tools. By the time reports compile, data is stale.

■ **Compliance Complexity Multiplies** HIPAA, SOC 2, PCI-DSS, NIST, CMMC — each demands unique evidence and control mapping.

Core Capabilities

Discovery & Scanning

✓ Non-intrusive scans on Windows, macOS, and Linux
✓ Remote data collectors & lightweight ISAA agents
✓ Automated scheduling with continuous monitoring
✓ SQL Server database security assessments

Cloud & Microsoft 365

✓ M365, Teams, SharePoint, OneDrive & Exchange audits
✓ Azure AD & Active Directory assessments
✓ AWS infrastructure evaluation & config review
✓ Conditional Access Policy gap analysis

Risk Intelligence

✓ Dual scoring: proprietary + CVSS + MS Secure Score
✓ Dark web monitoring & credential exposure detection

✓ Vulnerability scanning with CVE correlation
✓ AI-powered executive summaries

94+ Report Types

✓ Network (32), Security (39), Cloud (13), Compliance (10)
✓ Executive infographics & QBR presentations
✓ Multi-format: DOCX, PDF, XLSX, PPTX, VSDX
✓ Branded client-facing reports with your logo

Plans & Pricing

Plan	Monthly	Annual	Endpoints
Essentials	$499/mo	$4,990/yr	Up to 50
Professional	$999/mo	$9,990/yr	Up to 250
Enterprise	$1,999/mo	$19,990/yr	Unlimited
Managed	Custom	Custom	Full service

Annual plans save 17% • Professional includes dark web monitoring • 30-day free pilot available
