technology as a solution

ENTERPRISE AI PLATFORM

Technijian Chat.AI

Secure, multi-model AI with collective intelligence, workflow automation, and enterprise governance — purpose-built for organizations that demand more from AI.

4+	32+	>60%	99.9%
AI PROVIDERS	ENDPOINTS	COUNCIL WIN RATE	UPTIME SLA

The Challenge

Enterprises adopting AI face critical obstacles that generic chatbot subscriptions cannot solve.

Vendor Lock-In

Tied to a single AI provider with no failover, no model comparison, and no negotiating leverage.

→ **Chat.AI connects 4+ providers with automatic failover**

Runaway AI Costs

No visibility into which teams or users consume the most tokens. Bills arrive as surprises.

→ **Token-level metering with per-user budgets & alerts**

Security & Compliance Gaps

Consumer AI tools lack audit trails, role-based access, and tenant isolation for compliance.

→ **Row-level isolation, full audit trail, HIPAA/SOC 2 ready**

Single-Model Hallucinations

One model means no cross-validation. Wrong answers go unchecked and unverified.

→ **AI Council cross-validates with 3+ models per query**

Core Capabilities

Six integrated modules that transform AI from a siloed chatbot into an enterprise intelligence platform.

Multi-Model AI Engine

Access GPT-4o, Claude Sonnet, Gemini Pro, Llama through a unified interface.

- ✓ Switch models mid-conversation
- ✓ Auto-route queries by task type
- ✓ Streaming with file attachments
- ✓ Thread sharing & full history

AI Council (Patent Pending)

Multi-model collective intelligence that outperforms any single model.

- ✓ 3-stage: Diverge → Converge → Synthesize
- ✓ Anonymized peer review across models
- ✓ >60% win rate vs single models
- ✓ >30% hallucination reduction

Knowledge & RAG

Enterprise knowledge base with vector search across your documents.

- ✓ Weaviate, Pinecone, Chroma support
- ✓ File vectorization & semantic search
- ✓ SharePoint & Google Drive sync
- ✓ Persistent organizational memory

Custom Assistants

Build purpose-specific AI agents with custom system prompts and connectors.

Workflow Automation

Trigger complex workflows from chat context, powered by N8N integration.

- ✓ N8N workflow orchestration

Enterprise Governance

Complete visibility over AI usage, costs, and compliance.

- ✓ Token-level cost attribution

- ✓ System prompts & personas
- ✓ REST, GraphQL, DB connectors
- ✓ Project workspaces with context
- ✓ Template marketplace

- ✓ Connect to any API endpoint
- ✓ Scheduled & event-driven flows
- ✓ Chat-triggered automations

- ✓ Per-user & per-model budgets
- ✓ Usage analytics dashboard
- ✓ 75%/100% budget alerts

The AI Council — Patent Pending

Our multi-model deliberation system synthesizes collective intelligence, achieving consensus that outperforms any single model.

1. **Diverge**
   Each model independently generates its response. No model sees another's output, ensuring true diversity of reasoning.
2. **Converge**
   Models anonymously review and critique each other's responses. Agreements strengthen; contradictions flagged.
3. **Synthesize**
   A synthesis engine combines the strongest elements into a higher-quality response with confidence scoring.

>60% WIN RATE VS SINGLE MODELS	**>30%** HALLUCINATION REDUCTION
3+ MODELS PER QUERY	**100%** ANONYMIZED REVIEW

Real-World Use Cases

How organizations across industries leverage Chat.AI to transform their AI operations.

💼 Financial Services

Compliance-First AI Deployment

A 200-person financial firm needed AI for research but couldn't risk data leaks or hallucinated financial advice.

$19,212
ANNUAL SAVINGS (50 USERS)

🏥 Healthcare Organization

HIPAA-Compliant AI Knowledge Base

Clinical staff needed AI-assisted search across protocols with full HIPAA compliance and audit trails.

100%
AUDIT TRAIL COVERAGE

🛠 Technology Company

Multi-Model Developer Platform

100+ developers needed multiple AI models for code review and documentation without separate subscriptions.

$174K
ANNUAL SAVINGS (250 USERS)

Plans & Pricing

Simple, transparent pricing. No per-seat charges. Annual plans save 17%.

Starter

$299

$2,990/yr

- ✓ Up to 10 users
- ✓ 10M tokens/month
- ✓ Multi-model access
- ✓ Azure AD SSO
- ✓ Basic audit trail
- ✓ Email support

Growth

$899

$8,990/yr

- ✓ Up to 50 users
- ✓ 35M tokens/month
- ✓ Custom assistants
- ✓ RAG knowledge base
- ✓ Full audit trail
- ✓ Priority support

MOST POPULAR

Professional

$1,699

$16,990/yr

- ✓ Up to 100 users
- ✓ 75M tokens/month
- ✓ AI Council included
- ✓ N8N automation
- ✓ Advanced analytics
- ✓ Dedicated CSM

Enterprise

Custom

Contact for pricing

- ✓ 250+ users
- ✓ 200M+ tokens/month
- ✓ On-premise ($45K/yr)
- ✓ Custom integrations
- ✓ SLA guarantees
- ✓ 24/7 phone support

Competitive Comparison

Chat.AI delivers enterprise capabilities that consumer AI tools cannot match.

CAPABILITY	CHATGPT TEAM	MICROSOFT COPILOT	GOOGLE GEMINI	TECHNIJIAN CHAT.AI
Multi-Model Access	—	—	—	✓ 4+ Providers
AI Council Consensus	—	—	—	✓ Patent Pending
Per-User Cost Tracking	—	—	—	✓ Token-Level

Security & Compliance

Enterprise-grade security meeting the most stringent compliance requirements.

Azure AD SSO
Single sign-on with Microsoft identity. Zero friction.

Row-Level Security
Complete tenant isolation, no data leakage.

Full Audit Trail
Every interaction logged with timestamps.

Azure Key Vault
Secrets managed with automatic rotation.

Prompt Injection Defense
Multi-layer input validation and sanitization.

HIPAA / SOC 2 Ready
Healthcare and financial compliance.

RBAC Roles
Granular role-based access control.

Rate Limiting
Per-user, per-model endpoint controls.

Enterprise AI, Reimagined.
