HEALTHCARE AI PLATFORM • HIPAA READY

Technijian Chat.AI — Healthcare

HIPAA	PHI	>30%	100%
Ready & BAA	Isolated	Hallucination Cut	Audit Trail

Multi-model AI for healthcare — HIPAA-compliant architecture, PHI protection, clinical knowledge retrieval, and full audit trails from day one.

HEALTHCARE AI CAPABILITIES

HIPAA-Ready Architecture

- ✓ BAA (Business Associate Agreement) signed with Technijian
- ✓ Row-level tenant isolation — no PHI cross-contamination
- ✓ Azure/AWS HIPAA-eligible services only, encrypted at rest/transit
- ✓ Automatic PHI redaction in prompts & logs

Clinical Knowledge Retrieval (RAG)

- ✓ Ingest protocols, clinical guidelines, formularies, policies
- ✓ Semantic search across clinical documentation
- ✓ Cited, traceable answers with source attribution
- ✓ Role-based access (MDs, nurses, admin, billing)

AI Council for Clinical Accuracy

- ✓ 3+ models cross-validate clinical responses
- ✓ >30% reduction in hallucinations vs single model
- ✓ Critical for any decision-support use case
- ✓ Confidence scoring surfaces uncertain answers for human review

Governance & Audit

- ✓ Every query logged with user, timestamp, model, response
- ✓ Configurable PHI detection & auto-alerting
- ✓ On-premise deployment option for data sovereignty
- ✓ SOC 2 Type II, HITRUST roadmap, SSO via Azure AD

HEALTHCARE USE CASES

1. **Clinical Decision Support** — Cited answers from your protocols, guidelines & formularies
2. **Prior Authorization** — AI-assisted PA form completion & payer policy lookup
3. **Medical Documentation** — Draft notes, discharge summaries, letters with PHI protection
4. **Admin & Revenue Cycle** — Denial analysis, appeal drafting, eligibility workflows
5. **Staff Training & Policy Q&A** — Instant answers from employee handbooks, compliance policies

HIPAA SAFEGUARDS BUILT IN

HIPAA Requirement	ChatGPT	Copilot	Chat.AI Healthcare
BAA with provider	Enterprise only	Enterprise only	✓ Standard
PHI auto-redaction	—	—	✓ In prompts & logs
Row-level tenant isolation	—	Partial	✓ Full isolation
Audit log retention			

WHY CHAT.AI FOR HEALTHCARE

- **BAA Signed:** Technijian signs a BAA with your organization — HIPAA compliance is table stakes, not an upgrade
- **PHI Protection by Default:** Auto-redaction of 18 HIPAA identifiers in prompts & logs before AI providers see data
- **Clinical Accuracy:** AI Council cross-validates with 3+ models — critical when answers influence care decisions
- **Data Sovereignty:** On-premise or HIPAA-eligible cloud (Azure/AWS). Your data never leaves your control
- **Cited Answers:** RAG with your protocols & guidelines returns citations so clinicians can verify source
- **Role-Based Access:** MD, nurse, billing, admin, researcher roles — see only what their role permits

HEALTHCARE PRICING

Plan	Monthly	Users	BAA	PHI
