## AI GROWTH & BID-INTELLIGENCE — ONE-PAGE BRIEF

*Not a managed-IT or security pitch — you’ve told us that’s not a need today, and we’ve set it aside. This is AI on your commercial front end: getting found by the community managers who hire reconstruction contractors, and winning more of the bids you already compete for. It never touches the field work.*

|                                                          |                                                           |                                                  |                                                       |
|----------------------------------------------------------|-----------------------------------------------------------|--------------------------------------------------|-------------------------------------------------------|
| <b>3,500+</b><br>communities & buildings (self-reported) | <b>B + C-33</b><br>licensed general & painting contractor | <b>SB 326</b><br>HOA balcony repairs every 9 yrs | <b>3.4★/27</b><br>reported reviews — the gap to close |
|----------------------------------------------------------|-----------------------------------------------------------|--------------------------------------------------|-------------------------------------------------------|

**The gap is reach and reputation, not craft.** Rayco wins through a knowable universe of community managers, boards, and the construction managers who write the specs — yet it is thin where those buyers look: a reported 3.4-star, 27-review profile (competitors carry hundreds), no content hub (the /resources and /careers pages error out), and little presence in the AI answers a manager now asks first. Meanwhile California’s SB 326 has put thousands of HOA balcony repairs on a recurring deadline. The work and the demand are real; the trail a 2026 buyer follows to find you is not yet built.

|                                                                                                                                                                                                                            |                                                                                                                                                                                                                              |                                                                                                                                                                                                                    |

| <b>The entry — start small</b><br>Be found and trusted first: a modern site with SB 326 content, local-search presence, and a reputation engine. Priced from published My SEO / My AI ranges and scaled to your firm — the cheapest, fastest win, and it lifts every bid that follows. | <b>Value at stake — not a multiple we invent</b><br>One additional HOA reconstruction or full exterior-rehab contract — or one management-company portfolio opened — is worth far more than a year of this engine. It pays for itself on a single bid that would never have reached you. Real numbers modeled at discovery. |
