WHAT JIAN DOES — AUTONOMOUS MONITOR · TRIAGE · REPORT (ALL TIMES PACIFIC)

Alert

EVERY 15 MIN

Real-time critical-event detection → opens P1/P2 ticket + Teams channel + Adaptive Card.

Diagnose

DAILY 14:00

The judgment pass — decides what warrants a ticket + recommended fix + MITRE tag.

Activity

DAILY 14:30

Daily roll-up into a per-client posture summary — feeds reports + the learning loop.

Counts

DAILY 05:00

Observed-vs-billed reconciliation — surfaces under-billing & license waste.

Compliance Engine

- 31 evaluators across 5 frameworks (HIPAA, SOC 2, CMMC, PCI-DSS + baseline)
- Continuous evidence + branded monthly report + tamper-evident audit log
- Never claims a control passes without evidence

SIEM & Correlation

- 858 MITRE techniques, refreshed daily from official STIX
- Real-time (15-min) + retrospective re-scan of the prior 7 days
- Correlates Inky, Sophos, M365, CrowdStrike, Huntress

Communicates

- Email — morning summary, rich HTML security alerts, weekly report
- MS Teams @Jian bot — channel-per-ticket + self-service
- Client Portal — idempotent tickets + auto time entries
