FINANCIAL SERVICES AI CAPABILITIES

FINRA / SEC-Aware Architecture

- ✓ SEC 17a-4 WORM-compliant retention for chat logs
- ✓ FINRA 3110 supervisory review workflows
- ✓ Reg BI & fiduciary duty guardrails on client-facing output
- ✓ Communications archive integration (Global Relay, Smarsh)

Advisor & Research Intelligence

- ✓ Ingest firm research, prospectuses, marketing materials
- ✓ Cited, traceable answers with source attribution
- ✓ Policy & procedure retrieval for reps & advisors
- ✓ Training & CE material semantic search

Document Automation

- ✓ Auto-populate vendor due diligence questionnaires (DDQ)
- ✓ RFP response drafting from firm document library
- ✓ Compliance questionnaire & audit prep automation
- ✓ Days-to-minutes turnaround for institutional RFPs

Governance & Supervision

- ✓ Every prompt + response logged with user, timestamp, model
- ✓ Configurable supervisory keyword & sentiment alerts
- ✓ Role-based access: advisor, principal, compliance, ops
- ✓ PII/PCI redaction, SOC 2 Type II, on-premise option

FINANCIAL SERVICES USE CASES

- 1
- Vendor DDQ & RFPs — Auto-populate institutional questionnaires from firm library
- 2
- Advisor Research Assistant — Cited answers from research, prospectuses, policies
- 3
- Compliance & Marketing Review — Reg BI / fiduciary concerns flagged before FINRA 2210
- 4
- Client Communication Drafting — Letters & summaries with supervisory review hooks

FINRA / SEC SAFEGUARDS BUILT IN

Regulatory Requirement	ChatGPT	Copilot	Chat.AI FS
SEC 17a-4 WORM retention	—	—	✓ Immutable
FINRA 3110 supervisory review	—	—	✓ Built in
Global Relay / Smarsh archive	—	—	✓ Integration
Reg BI / fiduciary guardrails	—	—	✓ Policy-aware

WHY CHAT.AI FOR FINANCIAL SERVICES

- **FINRA-Aware by Design:** SEC 17a-4 retention, FINRA 3110 workflows, Reg BI guardrails — not bolted on
- **DDQ / RFP Automation:** Auto-populates institutional questionnaires & RFPs in minutes, not days
- **Archive Integrations:** Global Relay, Smarsh, Proofpoint — all AI conversations captured automatically
- **Supervisory Review:** Principals review AI output before clients see it, with AI flagging concerns
- **Data Sovereignty:** On-premise for RIAs concerned about data leaving; SOC 2 Type II in cloud

FINANCIAL SERVICES PRICING

Plan	Monthly	Users	Retention	Supervisory
