MODULE 1 — JIAN IT AGENT

Instant IT support, right inside Microsoft Teams

\$49

per month

IT SELF-SERVICE AGENT

Your always-available AI IT support assistant, embedded directly into your Microsoft Teams workspace.

Jian is your always-available AI IT support assistant, embedded directly into your Microsoft Teams workspace. Ask a question in plain English and get a step-by-step answer in seconds — no hold music, no waiting for a callback.

WHAT JIAN DOES FOR YOUR TEAM

- ✓ **Answers IT questions instantly, 24/7**
Password resets, M365 issues, printer troubleshooting, VPN access, and more — in seconds.
- ✓ **Opens a support ticket with one command**
When hands-on help is needed, a tracked Technijian support request is created automatically.
- ✓ **Learns from your support history**
Jian adapts to your organization's environment and gives answers specific to your setup — not generic KB articles.
- ✓ **Escalates intelligently**
Jian handles what it can and routes the rest to your dedicated tech team — no calls, no emails, no friction.

HOW IT WORKS

Simply type `@Jian` followed by your question in any Teams channel. Jian responds in seconds with actionable guidance.

If a tech needs to get involved, `@Jian ticket` creates a tracked support request automatically — no phone calls, no email chains.

TYPICAL QUESTIONS JIAN HANDLES

- Password reset
- VPN won't connect
- Printer setup
- M365 license error
- Outlook not syncing
- Teams audio issues
- New user setup
- Software install

NO INFRASTRUCTURE REQUIRED

Jian lives entirely within your existing Microsoft Teams environment. No new software to install, no agents to deploy, no training required for your team.

My M365 Report

Know exactly what's happening in every Microsoft 365 tenant. Every month. Automatically.

\$15–\$129

per tenant / month
by user count

BAND	USERS	MONTHLY	ANNUAL	INCLUDES
XS	1–10	\$15/mo	\$150/yr	Core 6 sections
S	11–25	\$29/mo	\$290/yr	+ Conditional Access, Defender O365, on-demand
M	26–50	\$49/mo	\$490/yr	+ Compliance pack (DLP, labels), eDiscovery readiness
L	51–100	\$79/mo	\$790/yr	+ API export, HIPAA/SOC 2/PCI mapping
XL	101+	\$129/mo	\$1,290/yr	+ 7-yr retention, dedicated CSM, 9 AM SLA, GCC

8 SECTIONS DELIVERED EVERY MONTH

01**Executive Summary**

KPI strip + plain-English narrative for each tenant

02**License Usage & Optimization**

Waste \$ estimate, unused and duplicate licenses

03**Security Posture**

Secure Score trend, MFA, Conditional Access, Defender

04**Compliance Status**

DLP policies, sensitivity labels, retention, audit log

05**Storage & Capacity**

Exchange, SharePoint, OneDrive utilization

06**User Health**

Stale accounts, disabled-but-licensed users, guest inventory

07**What We Did This Month**

Audit log summary of all MSP activity in the tenant

08**Recommendations**

P1/P2/P3 prioritized action items with remediation estimates

\$8-\$25

per user waste found

2-3 hrs

saved per tenant/mo

A 30-user tenant at the M-band finds **\$300/mo in license waste** — covering the \$49 fee 6× over in month one. Read-only Graph API — no admin credentials stored, no agent required.

MODULE 3 — REPORTING

My Meraki Report

Stop spending 4 hours per client on manual Meraki reports. Get a fully branded Word document delivered on the 1st — every month.

\$150

per Meraki org / month
all features included

10 REPORT SECTIONS — ALL INCLUDED AT EVERY PRICE

01-02

IDS/IPS + AMP Event Roll-Up

Deduplicated, categorized by severity. Plus firewall, VPN, DHCP activity report across all L3 rules and port forwards.

03-04

Full Firewall Config Snapshot

VLANs, SSIDs, S2S VPN, WAN interfaces. WAN configuration with live uptime status included.

05-06

Device Inventory + Firmware

Per-device inventory with firmware version vs. latest available. Versioned daily config history with 30-day diff viewer.

07-10

Change Audit Log + Delivery

Who changed what, before/after values. Branded Word deliverable. Weekly + on-demand reports. Unlimited admin users.

\$150/mo

flat per org — no tiers

50%

vs. \$300/mo manual labor cost

\$90K/yr

savings at 50 Meraki orgs

MSP SAVINGS AT SCALE

MSP SCALE	MANUAL LABOR COST	MY MERAKI REPORT	MONTHLY SAVINGS	ANNUAL SAVINGS
5 Meraki orgs	\$1,500/mo	\$750/mo	\$750/mo saved	\$9,000/yr
15 Meraki orgs	\$4,500/mo	\$2,250/mo	\$2,250/mo saved	\$27,000/yr
50 Meraki orgs	\$15,000/mo	\$7,500/mo	\$7,500/mo saved	\$90,000/yr

MODULE 4 — SECURITY REPORTING

My Sophos Report

Full firewall visibility. Automatic CP tickets. Monthly report on the 1st. IPS · ATP · Web Filter · Traffic Analytics — all delivered automatically.

ESSENTIALS

\$99/mo

Central Partner API · 1-5 firewalls

ADVANCED ★

\$199/mo

Central + XGS REST API · 1-5 firewalls

ENTERPRISE

\$299/mo

Central + XGS REST API · 6+ firewalls

12 REPORT SECTIONS — ALL TIERS + ADVANCED/ENTERPRISE

01 — All Tiers

Executive Summary

KPI strip, MoM indicators, plain-English status narrative, top-priority callout

02 — All Tiers

Firewall Inventory & Health

Model, serial, firmware vs. latest, HA pair status, unused rules flagged

03 — All Tiers

Alert Activity

Severity breakdown, aging alerts >7 days, linked CP ticket numbers

04 Adv+

IPS/IDS Threat Intelligence

CVE refs, MITRE ATT&CK mapping, attacker IPs, week-over-week trend

05 Adv+

ATP & Advanced Threats

Malware callbacks, C2 destinations, P1 flags, repeat offenders

06 Adv+

Web Filtering & App Control

Top blocked categories, per-user violations, Shadow IT detections

07 Adv+

Network Traffic Analytics

Total bandwidth, top 10 talkers, anomalies (lateral movement signal)

08 Adv+

User Security Activity

Per-user threat summary, auth events, privileged action audit

09 — All Tiers

VPN & Remote Access

Tunnel uptime, bytes transferred, SD-WAN failover events

10 — All Tiers

CP Activity

Tickets opened, alerts resolved, firmware updates, config changes

11 — All Tiers

Findings & Recommendations

P1/P2/P3 action list with remediation time estimates

12 — All Tiers

About & Data Sources

API method, scope note, tenant ID, firewall serials

Auto CP Tickets

every alert creates a tracked ticket

38–75%

less than Perch SIEM (\$300–\$800/site)

\$1,500+

missed billing recovered — month 1

JIAN SUITE — PRICING OVERVIEW

One Suite. Every Price Point.

Start with one module and add more as you grow. Bundle all four and save 15%.

IT SELF-SERVICE AGENT

WHY TECHNIJIAN

Built for MSPs. Delivered like clockwork.

MSP-Native Design

Every Jian module is built specifically for managed service providers — multi-tenant, white-label ready, and priced for recurring MSP economics.

Zero Agent Installation

No software deployed to client endpoints. Jian IT Agent lives in Teams. Reporting modules use read-only APIs. Nothing to maintain.

US-Based Support

Every ticket, every question, every onboarding call — handled by Technijian's US-based team. No offshore routing, no chatbot runaround.

Pays for Itself

My M365 Report finds \$8–\$25/user in waste in month one. My Meraki Report costs half the labor it replaces. Jian IT Agent deflects tier-1 tickets before they reach your engineers.

Compliance-Ready

HIPAA, SOC 2, PCI, and GDPR coverage built into the reporting stack. Audit trails, retention, and compliance mapping are included at the appropriate tiers.

Your Brand, Not Ours

All Word report deliverables are fully white-labeled with your MSP branding. Your clients see your name on every document delivered on the 1st.

Start Your Free Trial Today

Every Jian module includes a free trial — no credit card required. Start with IT Self-Service Agent in Teams or one monthly report. Add modules as you grow.
