

Private cloud, public cloud, and hybrid — **engineered, migrated, and operated** by a partner that runs its own datacenter.

CLOUD SERVICES

My Private Cloud

- ✓ Technijian-hosted VMs on VMware vSphere
- ✓ VDI, hosted desktops & app hosting
- ✓ U.S. data residency, SOC 2 datacenter
- ✓ Predictable OpEx — no hardware refresh

Public Cloud (AWS + Azure)

- ✓ Migration & re-platforming projects
- ✓ Well-Architected reviews & remediation
- ✓ FinOps cost optimization & commitments
- ✓ Managed services & 24/7 operations

Hybrid & Multi-Cloud

- ✓ Integrated on-prem, private & public cloud
- ✓ Unified identity, IAM & monitoring
- ✓ M365 + private cloud workload placement
- ✓ Secure interconnect (VPN, ExpressRoute)

Cloud Security & Compliance

- ✓ HIPAA-eligible architectures with BAA
- ✓ Encryption at rest & in transit, RBAC
- ✓ Network segmentation & zero-trust
- ✓ SOC 2, PCI-DSS, GDPR audit readiness

HOW WE ENGAGE

- 1 Assess** — Workload inventory, TCO modeling, risk & compliance review
- 2 Architect** — Design target state, landing zones & security controls
- 3 Migrate** — Lift-shift or re-platform in waves, with hypercare
- 4 Operate** — 24/7 managed cloud ops, FinOps & security posture

REPRESENTATIVE USE CASES

Scenario	Description	Outcome
Legacy DC Migration	On-prem retired → My Private Cloud hosting	CapEx→OpEx
AWS Cost Optimization	Rightsizing, RIs, Savings Plans, architecture fixes	30-40% off
HIPAA Azure Migration	Healthcare workload on Azure under BAA coverage	Audit-ready
Hybrid M365 + Private	Productivity in M365, regulated apps in private cloud	Unified ID
DR Target in Cloud	Ransomware-resilient DR with Veeam immutable backups	Tested RTO

WHY TECHNIJIAN

- **We run a cloud:** Our own SOC 2 datacenter, not just advice on someone else's
- **25+ years hosting:** Real operating experience, not slideware
- **Cloud-agnostic:** We recommend the right platform, not a default vendor
- **Compliance-first:** HIPAA, SOC 2, PCI-DSS, GDPR built into every architecture
- **Full lifecycle:** Assess → architect → migrate → operate, one partner
- **FinOps discipline:** Accountable cost optimization, not one-time rightsizing
- **Orange County based:** Local team, U.S. data residency, 24/7 ops

ENGAGEMENT MODELS

Cloud Readiness Assessment — Fixed-fee inventory, TCO & roadmap

Cloud Migration Project — Fixed-scope migration with waves & cutover

Managed Cloud — Monthly 24/7 ops, security & FinOps

Fractional Cloud Architect — Retained senior cloud leadership

INDUSTRIES SERVED

- ✓ Healthcare & HIPAA
- ✓ Financial Services
- ✓ Legal & Professional
- ✓ Manufacturing
- ✓ Technology & SaaS
- ✓ Real Estate
- ✓ Non-Profit
- ✓ Retail

PLATFORMS & TOOLS

- **Private:** VMware vSphere, Technijian SOC 2 datacenter
- **Public:** Amazon Web Services, Microsoft Azure
- **Productivity:** Microsoft 365, Entra ID, Intune
- **Backup/DR:** Veeam immutable backups, tested failover
- **Assessment:** Network Detective, Well-Architected reviews

CLOUD IMPACT

AWS/Azure Spend
30-40%
FinOps reduction

Uptime Target
99.99%
Private cloud SLA

Financial Model
OpEx
No hardware refresh
