

Living documentation library — SOPs, runbooks, configurations, and diagrams kept current with versioning, approvals, and framework-aligned templates.

ATLAS CAPABILITIES

Documentation Library

- ✓ SOPs, runbooks, playbooks, configurations
- ✓ Asset relationships & dependency mapping
- ✓ Network & system diagrams with version history
- ✓ Linked to assets, credentials, and policies

Version Control & Approvals

- ✓ Draft → Published workflow with reviewer gates
- ✓ Full version history with diff view
- ✓ Publishing approvals & audit-trail signoffs
- ✓ Rollback to any prior published version

Template Library

- ✓ MSP-standardized templates across all clients
- ✓ Tenant-specific customization & overrides
- ✓ Framework-aligned templates (HIPAA, SOC 2, CMMC)
- ✓ Pre-built runbook patterns for common scenarios

Search & Knowledge Retrieval

- ✓ Full-text search across the entire library
- ✓ Tag-based organization & faceted filtering
- ✓ Relationship mapping across assets & docs
- ✓ Quick-link from incidents to relevant runbooks

TODAY'S DELIVERY — CONSULTING

TODAY — TECHNIJIAN CONSULTING

Manual documentation in Word, Confluence, and N-able Passport Documentation. High-quality, framework-aligned, maintained by experienced engineers and updated on a defined cadence.

TOMORROW — NEXUS ATLAS

AI-powered grounded Q&A across the entire library, automated runbook drafting from observed activity, and configuration diff tracking across assets.

WHY ATLAS

- **Auditors Demand Current Docs:** Stale SOPs are an audit finding — Atlas keeps them trustworthy
- **Engineers Actually Use It:** Searchable, linked, and current means the library gets opened, not ignored
- **Faster Onboarding:** New staff ramp on real runbooks instead of tribal knowledge
- **Framework-Aligned Templates:** HIPAA, SOC 2, CMMC scaffolding ready out of the box
- **Nexus Migration Path:** Documentation built today carries forward to AI-powered Nexus Atlas

ENGAGEMENT MODELS

Model	Best For
Documentation Bootstrapping	Build initial library from scratch
Managed Documentation	Ongoing updates, reviews, and publishing
Framework-Specific Templates	HIPAA, SOC 2, CMMC scaffolding packs
Documentation Audit Prep	Bring docs to audit-ready state

FRAMEWORKS SUPPORTED

- ✓ HIPAA
- ✓ SOC 2
- ✓ PCI-DSS
- ✓ CMMC
- ✓ NIST CSF
- ✓ CIS Controls
- ✓ ISO 27001
- ✓ GDPR

ATLAS IN ACTION

- 1 Bootstrap:** Build initial library from framework templates & current state
- 2 Maintain:** Scheduled reviews with draft → published workflow
- 3 Search:** Full-text + tag retrieval surfaces the right runbook on demand
- 4 Audit:** Version history & signoffs satisfy any framework reviewer
