

We Guide You to the Clean Opinion — multi-framework Audit Sherpas, evidence-first, with experienced auditor coordination.

AUDIT SHERPA CAPABILITIES

Gap Assessment & Remediation

- ✓ Framework control mapping (SOC 2, HIPAA, CMMC, PCI, ISO)
- ✓ Current-state gap analysis with severity scoring
- ✓ Prioritized remediation roadmap with timelines
- ✓ Owner assignments & accountability tracking

Policy & Evidence Prep

- ✓ Policy library bootstrapping or refresh
- ✓ Evidence collection playbooks per control
- ✓ Control testing validation pre-audit
- ✓ Exception documentation & compensating controls

Audit Firm Coordination

- ✓ Auditor selection guidance (Big 4 + boutique)
- ✓ Kickoff meetings & scoping facilitation
- ✓ Request-and-response (PBC list) management
- ✓ Evidence delivery pipeline & secure portal

Audit Execution Support

- ✓ Daily standups during audit fieldwork
- ✓ Auditor Q&A response & clarification
- ✓ Exception remediation during audit window
- ✓ Closing meeting prep & report review

WHEN YOU NEED AUDIT PREP

- First-Time Audit** — SOC 2, HIPAA, CMMC, PCI-DSS, or ISO 27001 starting from zero
- Qualified Opinion Recovery** — Previous audit had exceptions to remediate before next cycle
- Bandwidth Gap** — Internal team doesn't have capacity to manage the audit timeline
- Need a Navigator** — You want an experienced sherpa, not just gap-analysis advice
