

HIPAA Compliance. Operationalized. — Security, Privacy, and Breach Notification Rule alignment for covered entities and business associates.

HIPAA CAPABILITIES

Administrative Safeguards

- ✓ Policies, procedures & workforce training
- ✓ Security/Privacy Risk Assessments
- ✓ Contingency planning & incident response
- ✓ Business Associate Agreement (BAA) management

Physical Safeguards

- ✓ Facility access & workstation security
- ✓ Device & media controls (inventory, disposal)
- ✓ Mobile device & BYOD hardening

Technical Safeguards

- ✓ Access control, unique user ID, MFA
- ✓ Audit controls & log review
- ✓ Integrity & person/entity authentication
- ✓ Encryption in transit & at rest for ePHI

Breach Readiness & Response

- ✓ PHI-aware detection & monitoring
- ✓ 60-day breach notification clock management
- ✓ OCR reporting, media & patient notification
- ✓ Forensics & post-incident remediation

HIPAA USE CASES

Use Case	Focus	Impact
Medical Practice Readiness	Security Rule across EHR, M365, backup	Audit-Ready
PHI Data Mapping	Inventory PHI + minimum-necessary controls	Full Map
Ransomware Recovery	Breach notification + OCR reporting	60d Clock
Business Associate Setup	SaaS BA: Tech Safeguards + BAA program	BAA Ready
Annual HIPAA Risk Assessment	Evidence refresh for mature program	Yearly

MODULES INVOLVED IN HIPAA

- Vault:** Credentials for EHR & PHI systems
- Atlas:** Policy & procedure documentation
- Govern:** Policy lifecycle & approvals
- Assess:** Risk assessments + vulnerability scans
- Audit:** Evidence binders for OCR
- Shield:** PHI DLP across endpoints & email
- Guardian:** File share PHI protection

WHY HIPAA NOW

- **OCR audits intensifying:** Enforcement priorities now stress risk analysis, right-of-access, and Security Rule basics
- **Healthcare ransomware doubled YoY:** HHS treats most ransomware events as presumptive breaches
- **Record HHS penalties:** Multi-million-dollar settlements for risk-analysis gaps, missing BAAs, late notifications
- **State laws stacking on HIPAA:** California CMIA, Washington MHMD raising the compliance floor

ENGAGEMENT MODELS

HIPAA Readiness Assessment — Fixed-fee gap assessment + roadmap

Program Implementation — 6-month fixed-scope rollout

Managed HIPAA Program — Monthly retainer, ongoing ops

Fractional Privacy/Security Officer — Retained HIPAA officer / vCCO

HEALTHCARE SEGMENTS SERVED

- ✓ Medical Practices
- ✓ Dental Practices
- ✓ Behavioral Health
- ✓ Specialty Clinics
- ✓ Labs & Imaging
- ✓ DME Providers
- ✓ HealthTech SaaS (BA)
- ✓ Healthcare MSPs

COMMERCIAL TOOLS + TECHNIJIAN EXPERTISE

- **Credentials:** N-able Passport for EHR & PHI systems
- **Risk Assess:** Network Detective (HIPAA module) by RapidFire Tools
- **Vuln Scans:** Pentest-Tools.com external scanning
- **PHI DLP:** Teramind DLP & user activity monitoring
- **Backup:** Veeam HIPAA-compliant backup & recovery

Best-in-class tools today + priority migration to Nexus Compliance when launched.

PROGRAM IMPACT

OCR Audit Ready Evidence binder	Breach Clock 60d Clock managed	Risk Assess Annual Refreshed
